FOR IMMEDIATE RELEASE

JULY 30, 2008

**All Natural NovaMoist Eliminates Dry And Inflammatory Skin Problems; Soothes And Moisturizes**

BEVERLY HILLS, CALIF.--NovaMoist, an all-natural skin care product designed to alleviate itching and skin irritation while moisturizing and soothing the skin, is now available.

Developed by two physicians from centuries-old Tibetan remedies, NovaMoist is a blend of 100 percent pure essential oils. When a drop of NovaMoist is applied to the skin, the natural oils provide quick and long-lasting relief. Made of lavender, rose, geranium, clary sage, bergamot, juniper, fennel and sesame oil, NovaMoist contains no chemical additives, synthetic fragrances, petroleum derivatives or animal products.

Sufferers of such skin problems as itching, pre-and postmenopausal dry skin, dry elbows, cracked nail beds, cracked and flaking heels and red blotches can benefit from NovaMoist. Acute and chronic inflammatory skin issues from burns, face peels, waxing, sunburn, shaving, eczema and psoriasis can also see positive results.

For most applications, one drop of NovaMoist is all that's needed, three times a day for three weeks initially. To maintain beneficial results, NovaMoist should then be applied three times a week or as often as needed. Cost: \$49.95 plus shipping and tax (California residents). Each container holds more than 200 applications. To order, go to [www.NovaMoist.com](http://www.NovaMoist.com).
